

Yevgen Mishchenko

Python developer

Hello, I have been working in the shipping industry as a navigator for 5 years and have acquired experience in all aspects of maritime operations. I am looking forward to learning more about your company, meeting my new colleagues, and contributing to your success. I want to be a really good programmer, because I love it, and I want to be important for the people who will use our own product and make them happier

Sincerely, Yevgen
